Project

Field(s)	Interdisciplinary in the field of performing and visual arts.
Description	Conducting a series of professional training in the field of contemporary stage and fine arts. Involvement of EU experts on academic music, modern choreography and fine arts for the purpose of conducting series of workshops for creative youth and students of art educational institutions. Focusing on the creative search for young artists in the area of contemporary art. This will promote freedom of expression and overcoming the effects of the authoritarian past, when creative workers had certain limitations in expressing their own civic position through art. Master classes and creative meetings with reputable experts from the EU in the field of contemporary musical art, contemporary choreography and fine arts. Target audience: artistic workers in the field of stage and fine arts, teachers, students and students of art educational institutions. (with e.g. Context, Objectives, Impact/results, Activities, Targeted public...)
