Name	Subdirección General de Coordinación Bibliotecaria (Subdirectorate General for Library Coordination)
Short description	We are the office of the Spanish Ministry for Education, Culture and Sports in charge of the cooperation in the area of public libraries and Bibliographical Heritage. As part of our competencies, we engage in cooperative projects that'd benefit the Spanish Public Libraries and we want to do so at a European level. Our office has several projects at a national level, such as Hispana, the portal to access the digitized cultural heritage and national aggregator to Europeana, e-Biblio, a platform for e-lending in the Spanish Public Libraries, the elaboration of library statistics and the Bibliographical Heritage Union Catalogue which coordinates and manages the online catalogue for bibliographical heritage collections in Spanish libraries (printed books from incunabula up to 1958 and special collections). We also actively participate in international organisations such as IFLA, NAPLE and EBLIDA.
