| Name              | Miniatura City Theatre   |
| Short description | <p>We are one of the oldest theatre dedicated to children and young people in Poland – this year we have a 70<sup>th</sup> anniversary. Our repertoire is aimed at the entire family and involves talented artists from Poland and abroad. Each year the theatre gives around 300 performances, watched by over 55,000 people. The plays produced include classical works as well as contemporary children's and young adult literature for audiences as young as 12 months. In addition, 'Miniatura' strives to undertake non-standard activities such as the production of a theatre detective series or activities aimed at entering the city's public space – open-air performances, for example. The theatre's repertoire is supplemented by events which accompany premieres or which are co-produced with other cultural institutions, publishers or non-governmental organisations. These include family workshops, open meetings, panels and debates, book fairs, festivals or guest theatre shows. Biannually we organize a festival "What's new" dedicated to new subjects and forms in theatre for children and young people. Last edition, in 2016, was dedicated to theatre for young people, how to make it and how to engage young people with theatre.</p> <p>We have a vast experience in participating in grant schemes on national level and some on the international – we were a leader in a two-year "Blue Planet" project funded from EEA grants, realized in cooperation with the Association of Independent Theatres in Iceland. <a href="http://www.teatrminiatura.pl/en/aktualnosci/categories/blue-planet/">http://www.teatrminiatura.pl/en/aktualnosci/categories/blue-planet/</a></p> |

Field(s)

Theatre, education, audience development, artist's mobility

Description

We are interested in becoming a partner in projects where we can learn and develop our know-how, exchange experiences and work out some new, innovative approaches – especially in the audience development area: new methods of involving our audience, how to find new audiences etc. But we are also opened to any interesting ideas where our experience may be needed even if they are not related to audience development.
